3. What are the conditions to enable a refund option for an order?

Answer:

To enable the refund option for an order, it has to meet some conditions. Those are:

- The order has to be **paid**.
- The order **Delivery Status** must be within Admin's Selected Delivery Status.
- The order has to meet the admin's added **Time Period** for refund request generation

4. What is the time period for a refund request?

Answer:

Refund period is for the admin/customers/sellers to send a refund request. This time is calculated from the order creation time. If the time is crossed, the admin/customer/seller can not send the refund request.

5. What is the Order Status for Enabling Refund Requests?

Answer:

Admin choose the Delivery Status for Enabling Refund Requests. If the delivery status of an order is matched with the admin chosen Delivery Status, then the admin/customer/seller can send the refund request.

6. How to send a Refund Request?

Answer:

From Admin panel:

- Go to the **Order Details** page.
- Click on the **Create Refund** button.
- Select the products, product quantity, Refund Amount, Refund Reasons, Note, payment type and Attachments if any.
- And click on the **Refund** button

- If you select the payment type **Wallet**, the refund amount will be added to the customer wallet instantly. And If you select the Payment Type **Manual**, you have to pay the refund amount to the customer manually.
- Admin created a refund request approved automatically.

Refund note

orem Ipsum is simply dummied text of the printing and typesetting industry. Lorem Ipsum has been the industry's standard dummy text ever since the 1500s when an unknown printer took a galley of type and scrambled it to make a type specimen book. It has survived not only five centuries, but also the leap into electronic typesetting, remaining essentially unchanged.

The screenshot displays the 'Refund requests' interface in the 'THE SHOP' seller panel. The top navigation bar includes 'THE SHOP' logo, 'Browse Website', 'Add New Product', and user information for John N. Klein. The left sidebar lists various dashboard options, with 'Refund Requests' highlighted. The main content area shows a table of refund requests. The first request is for a 'Meris Tundra Winter Jacket' with a status of 'Pending'. The 'Options' column for this request contains 'Check' and 'Cross' icons, which are highlighted by a red box. A red arrow points to the 'Status' column for the first request, which is 'Pending'.

8. How to approve/reject Refund Requests by Admin?

Answer:

- From admin panel Click on **"Refund > Refund Requests"**
- Click on the **Eye** icon to see the **refund request details**.
- Click on the **Check** icon to **accept** the refund request. If the product owner is a seller, it needs seller approval. If the seller approved the request then the admin finally approved the request, the refunded amount will be deducted from the seller's earnings. And if the seller does not approve the request, but admin does the final approval, admin has to pay to the seller by his responsibility.
- To accept a refund request, check the refund amount (admin can change the refund amount).And Choose a payment option **"Pay Manually"** or **"Pay In Wallet"**.
- Click on the Cross Icon to **Reject** a refund request.
